

Field	Details
Bug ID	BUG_LOGIN_001
Title	Login validation does not indicate that Email and password is required when both fields are empty
Module	Login
Environment	Connectia/Microsoft Edge/Windows 11/desktop
Status	New

Steps to Reproduce

1. Open the Connectia login page
2. Leave the Username field empty
3. Leave the Password field empty
4. Click the login button
5. Observe the validation message displayed

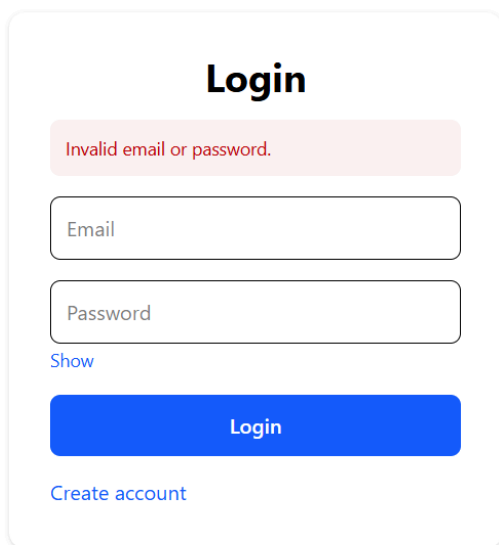

Expected Result

When both fields are empty, the application should clearly inform the user that both Email and Password are required , or provide clear validation for each missing field.

Actual Result

The application displays: “Invalid email or username”

Evidence

The screenshot shows a login form titled "Login". At the top, there is a red error message: "Invalid email or password.". Below this, there are two input fields: "Email" and "Password". A "Show" link is positioned below the password field. At the bottom of the form, there is a blue "Login" button and a "Create account" link.

Severity : Medium

The issue does not prevent the user from eventually logging in, but the validation feedback is wrong and may cause confusion.

Priority: Medium

The issue affects the clarity of the login experience but does not completely prevent the users from correcting their input.

Field	Details
Bug ID	BUG_HOME_001
Title	The menu is not highlighted according to their respective pages
Module	HOME
Environment	Connectia/Microsoft Edge/Windows 11/desktop
Status	New

Steps to Reproduce

1. Open the Connectia login page
2. Login with valid credentials
3. Navigate to profile page
4. Again navigate to home page
5. Observe the side menus

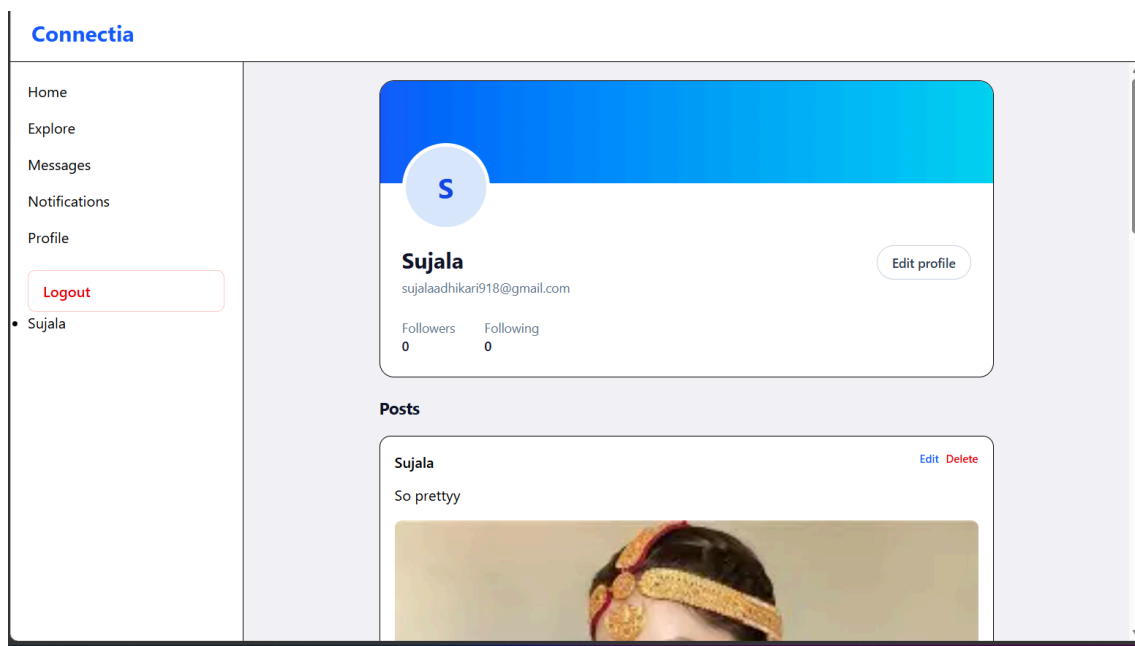

Expected Result

After logging in and getting redirected to the home page, the Home button of the side navigation bar should get highlighted indicating the user that they are on the home page. Likewise when they are on the profile page, the Profile button of the side navigation bar should get highlighted indicating the user that they are on the profile page.

Actual Result

The application doesn't highlight the nav buttons according to their respective pages.

Evidence

Severity : Medium

The missing highlight reduces navigation clarity but doesn't block functionality.

Priority: Medium

The issue affects usability but doesn't block the user from navigating and using the application.

Field	Details
Bug ID	BUG_COMMENT_001
Title	User can't comment on their friends post
Module	POST
Environment	Connectia/Microsoft Edge/Windows 11/desktop
Status	New

Steps to Reproduce

1. Open the Connectia login page
2. Login with valid credentials
3. Go through your friend's post
4. Try to comment
5. Observe the result

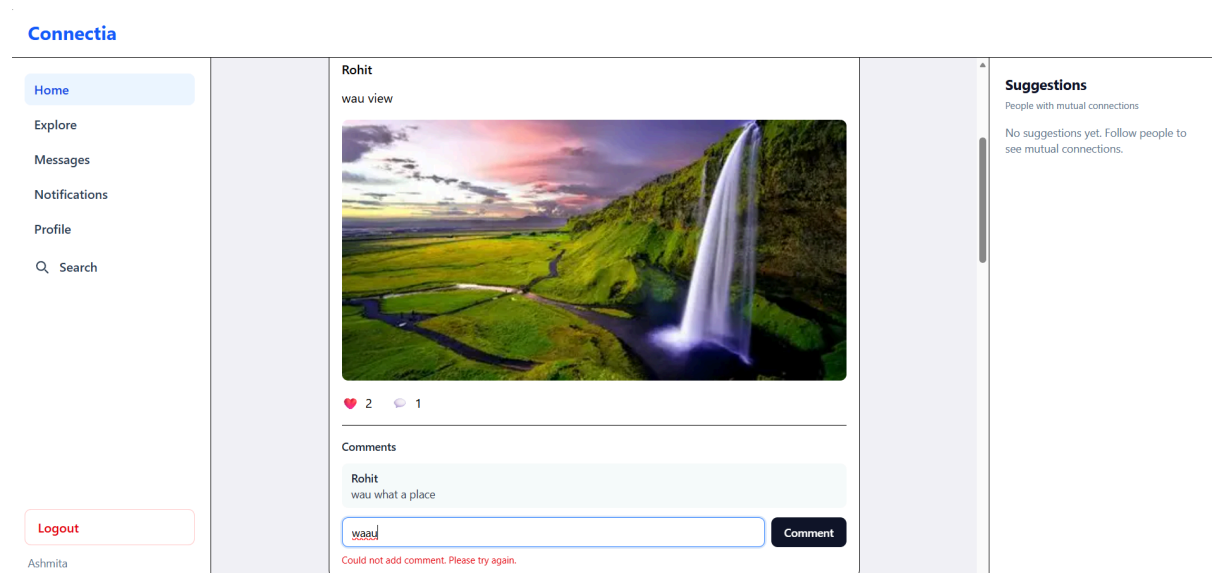

Expected Result

On the dashboard users should be able to comment on their friend's posts.

Actual Result

The user was not able to comment on their friend's post instead they were able to comment on their post themselves.

Evidence

Severity : Medium

The bug partially breaks a core social feature but does not crash the application or cause data loss.

Priority: High

It prevents users from interacting with friend's posts so it should get fixed soon.

Field	Details
Bug ID	BUG_LIKES_001
Title	User can't like their friends post
Module	POST
Environment	Connectia/Microsoft Edge/Windows 11/desktop
Status	New

Steps to Reproduce

1. Open the Connectia login page
2. Login with valid credentials
3. Go through your friend's post
4. Try to like
5. Observe the result

Expected Result
